Northern Nuggets

A shower was held at Albert school Saturday evening, March 14, honoring Miss Jennene Archibald, a bride-elect of this month. Hostesses were Mrs. Harley Bars and Mrs. Clair Lukens. Mrs. Louis Larson and Mrs. Martin Lovig had helped plan the shower but were unable to be present because of the flu. Games were played during the first part of the evening followed by a short program. Misses Marjory Matthews, Laverne Larson and Enid Jones played piano solos and Miss Carol Matthews and Master Dickie Allen gave recitations. Following a song led by Mrs. S. Coulman at the piano, Mrs. H. Bars presented Jennene with her gifts and the best wishes of all. After the hostess had assisted her in opening the many lovely things, Jennene fittingly expressed her thanks and gave everyone a warm welcome to visit her in her new home in Wainwright. A delicious lunch brought the evening to a close.

Mr. Bill Palligrin has been a visitor at the home of Mr. and Mrs. E. C. Prior by whom he was employed several years ago.

Mr. Red Larson is the proud owner of a new Ford car.

Mrs. A. C. Archibald and Miss Jennene were city visitors this week.

Another W.I. card party will be held in Albert school on March 20 and don't forget the Junior Red Cross Box Social and dance there on March 27.

Mrs. Dave Smith returned to Edmonton on Thursday after an extended visit with her mother Mrs. E. J. Jones and other relatives.

The FUA meeting was postponed until Tuesday evening as most of the men attended the Viking-Vermilion final hockey game in Vermilion on Monday.

Attendance was small at the annual phone meeting. All officers remain the same for the next year.

Mrs. Ted Prior reports that Mrs. Meakins is recovering nicely from her eye operation but that another one will be necessary.

Alan McRoberts had a tonsil operation in Mannville hospital on Wednesday.

Card of Thanks

We wish to express our sincere thanks to the many relatives and friends who so kindly helped us during our sad bereavement. Also for the beautiful floral tributes and donations.

—The Stimson Family.

Card of Thanks

I take this means of expressing gratitude for the many expressions of kindness which have been shown me, as varied as the personalities of the givers. The way to recovery was thereby brightened.

All joined in singing "Happy Birthdays" while the hostesses presented Mrs. Ashdown with a handful of lovely cards.

Games were enjoyed throughout the evening after which a delicious lunch, including a birthday cake, was served.

Mrs. Ashdown was so taken by surprise that she couldn't find words to adequately express her appreciation, but would like to take this opportunity to thank each one who by their presence, their co-operation and their good wishes, helped to make the evening a success.

Billy Masson Attracts Attention of Scout

Honor has come to Irma hockey player Billy Masson who has been scoring plenty of goals this season while playing with the Vikings Lions. Having his arm in a cast the last 6 or 7 weeks doesn't seem to have dimmed his performance and on Tuesday of this week Billy received word that he has been noticed by Clarence Mohr, talent scout for the Detroit Red Wings and is to hear more from Mr. Mohr.

Billy is also to attend hockey school at Winnipeg in August and has already been asked to play with the Junior Old Kings this coming season. What more could an "up and coming" young hockey player ask for?

IMPLEMENT PRICES AT LOW LEVEL OF INCREASE

That implement prices have been kept at a low level is clearly shown by the comparison of Dominion Bureau of Statistics index figures, which give an increase in "all commodities" since 1941 of 82.3%, as against an increase in a comparable index for Massey-Harris implements of only 66.5%. This low percentage of increase, too, is shown in the face of an increase in the index figure for materials of 93.9% and of Massey-Harris rates of pay of 165% as can be seen by referring to the chart shown above.

Also, the indexes show that while farm implements have only increased 66.5%, there has been an increase in the price of farm products of 93.8% and the scarcity of farm labour has caused farm wage rates to climb to 175.3%. The partial absorption of the increased costs of materials and labour has been made possible by the continued great world demand for farm mechanization giving a volume that permits a low ratio of selling expenses and high operating efficiency in manufacturing.

Four Million Dollar Capital Program Planned by Gas Co. in 1953

In order to keep pace with the ever increasing growth of the system which it serves, Northwestern Utilities, Limited, is planning another major capital works program during the present year. It is anticipated that the expenditure on this program will run close to \$4,000,000.00.

In line with its efforts to provide and ensure adequate reserves for its customers over the long range future the Company commenced late in 1951 and carried on in 1952 the development of a new source of supply in what is known as the Fort Saskatchewan-Legala area. The major portion of the expenditure in 1953 will be the further development of this area and the connecting of it to the Company's main transmission line system from the Viking-Kinsella Field to the City of Edmonton. The detailed planning of this program has not yet been completed. From the work done to date substantial additional reserves have been indicated.

Up to the present time 13 wells have been drilled in this new area and 3 have been purchased from Imperial Oil Limited. Of the 13 drilled 4 have been abandoned. The remainder including the wells purchased from Imperial Oil are commercial producers and will be connected to the Company's system. Approximately \$2,000,000.00 of this year's capital expenditure has been allocated to the development of these new areas and for the connecting of them to the Company's existing system.

In December 1952 the Company connected to its system its 50,000th customer and at the end of the year was serving 50,281 customers. An additional 3,500 customers have been estimated for 1953. In order to serve these customers substantial additions and improvements have to be made to the distribution systems in the City of Edmonton and other communities which it serves. The extension of its distribution plant and the purchase of meters and regulators to serve its new customers will cost the Company approximately \$1,000,000.00. A franchise agreement has been submitted to the Village of Legal and it is intended to connect the Village to wells which the Company owns in that area. The distribution system within the Village and the transmission line to the wells would be laid this summer. In order to increase the capacity of its transmission line south to the City of Red Deer in order to serve anticipated new business in the cities and towns south of Edmonton a new compressor station

will be built at a cost of approximately \$120,000.00 near the City of Wetaskiwin.

Office, residence and stockroom accommodation for its local agents will be built in the Town of Fort Saskatchewan and the Village of Holden. Many additions and alterations will be made to other buildings now owned by the Company.

The balance of the Company's estimated capital outlay provides for major office, shop, garage and other equipment. Provision has been made for several additions to the Company's fleet of motor vehicles and to its FM short wave radio communication system.

HOME ECONOMIST NEWSNOTES

Shirley Holms, Wainwright, Alta.

Dust Absorbing Dust Cloths
1 pint hot water.
¼ cup lemon oil.

Use old soft knitted silk, rayon or cotton cloths. Cut the edges with pinkish shears to prevent raveling, or finish with narrow hems. Stir the oil into the hot water. Immerse 6 or 8 cloths into this mixture and let them absorb as much of the liquid as possible. Wring the cloths as dry as possible out of the mixture and let them hang until thoroughly dry. When cloths become soiled, wash in warm soda and treat again.

Hints for Homemakers

1. Protect leather gifts from scuffs with wax. Keep a glossy surface on luggage, purses, belts, shaving kits, manicure and cosmetic kits, jewelry boxes, brief cases, riding gear, book bindings and the like.

2. Time to retire ice skates for the season so give them a protective film of wax to help guard the leather from dampness. Wax will retard corrosion on the metal parts too.

3. Glamorize your galoshes before you put them away by giving rubber surfaces a beauty treatment with a self polishing wax.

Lenten Dishes—Say Cheese!

Few foods can be used in such a variety of ways as cheese in the luncheon, supper or dinner menu. Because of its high protein content, cheese is in the same class of food as meat, fish, poultry and eggs and since it is usual to depend upon the main course to supply the protein for the meal, the principal use of cheese should be in this role. However, meats which would otherwise be somewhat lacking in protein, cheese may be served in the salad, dessert or even soup courses to make up the deficiency. A one inch cube of cheese is equivalent to 1 ½ cups of milk in caloric value. Send for recipes, "Cheese Dishes," from me.

Promer Equipment

Do not try to do kitchen work without the proper equipment. A cheap knife, a patched-up pot, a dull can opener should be discarded, for actually they cost you time and money because of their inefficient operation.

Facts About Figures

Diet control is most important for your figure. It takes a lot of exercise to offset one little snack. For instance, it takes a brisk one-mile walk to cancel out two chocolate minis and an hour of spading in the garden to balance the effect of one piece of apple pie!

Do you know that to lose a pound of body fat a person would have to saw wood for 10½ hours, lay 14,703 bricks, or shovel 114,000 lbs. of sand? Write to me for the bulletin "Facts and Figures for the Over-Weight."

Joe Boe arrived from Los Angeles, California, on Monday and is a guest at the H. G. Thunell home. Joe left here some twenty-six years ago and this is his first visit to, as he calls it, his "old home town." It will be remembered that his father, the late Rev. T. T. Boe, was pastor of the Golden Valley Lutheran Church from 1921 to 1931. Rev. Boe then accepted a pastorate in Minnesota. Joe, while attending high school here, spent his spare time in the News Office, writing up sports events and attending to a considerable amount of advertising business in those by-gone days. He left for "greener pastures" in the U.S. in 1927 and is now with the Howard Hughes Corporation in Los Angeles, California, famous for aircraft manufacture and high class movies. He has renewed acquaintances with many friends here.

Funeral services for the late Olaf Benart Benson, who died on Sunday, March 8, were held at the Golden Valley Lutheran church on Thursday, March 12, at 2 p.m. A large gathering of friends and relatives attended the services conducted by the Rev. J. Precht, pastor of the church. During the service favorite hymns were sung by the congregation, and a solo by Mr. Stanley Sorenson. Burial took place in the Golden Valley cemetery.

Sunday evening, March 8, the home of Mr. and Mrs. George Cottrell was the scene of a surprise party when about 35 friends and neighbors gathered to honor Mr. and Mrs. W. G. Kelly who had recently celebrated their 40th wedding anniversary.

Your Government

By Donald F. Smith

EDMONTON—Last week in the Alberta legislature seemed to be cabinet ministers' and city members' week, with only three rural members getting to their feet as the debate on the budget speech began.

Opposition Leader J. Harper Prowse (Lib., Edmonton) and CCF Leader Elmer E. Roper (Edmonton) both charged that too much is being spent on highways which are not being properly built. They complained that the province's roads are breaking up at one end before they are completed at the other. Mr. Roper called on the government to set up a commission of international experts to study the province's road-building problems. Both leaders claimed that the government is not giving the municipalities all the financial aid possible, with Mr. Prowse suggesting that with its surplus the government could make all municipalities debt-free, overnight.

Later in the debate, Peter Chabab (SC, Redwater) said the cities may not be satisfied but the "rural people are enthusiastic about the grants to municipalities." Actually, he added, rural citizens are helping pay city taxes by patronizing city business, which in turn pays taxes to the cities.

The extent of Alberta's teacher shortage, which received considerable discussion by members of both sides of the house earlier, was minimized by Education Minister Anders O. Aulberg (Alexandra), who said the situation is far more acute in other provinces.

In reply to earlier suggestions that higher pay would attract more teachers, the minister said the average of \$2,343 paid to rural teachers in 1950-51 was the highest in Canada, outside of possibly B.C.

J. Percy Page (PC, Edmonton), a former teacher, pointing out that there were probably 20 former teachers in the house, asked: "Why, then, do these teachers leave their jobs to take up something else?" He said he thought the education minister gave the wrong impression. "A salary of \$2,700 is nothing to boast about," he said.

Mr. C. B. W. (CPC, Stony Plain) said that if the opposition members are not satisfied with the premier's budget, it is because it is "an orthodox budget" which cannot meet the needs of today. She blamed faulty monetary practices.

"Instead of taking money away from the people by taxation, the opposite should be done," she said. "This government has done much, but more could be done if it could control credit."

R. Earl Ansley (Ind. SC, Leduc) took government members to task for not pressing "real Social Credit" ideals. He said his constituents are disappointed by the interest rates proposed on loans to municipalities and co-operatives and, also, feel that direct assistance to education falls far short of what was anticipated.

Dr. W. W. Cross (Rand Hill), minister of health, suggested that \$1-a-day hospitalization will be just that, with the government proposing to pay \$60 per cent of hospital "extras" borne by municipalities. It means that patients of hospitals in 52 of the province's 65 municipal hospital districts would pay only \$1 a day in hospital. These districts already are paying 50 per cent of the extras and could pay the whole thing at no extra cost with the government refunding 50 per cent.

Attorney-General Lucien Maynard (St. Albert), in one of the session's longest addresses, refuted claims made by Opposition Leader Prowse, that the government was the most expensive ever known. Mr. Maynard told the house to-day's spending could not be compared with that of many years ago, because the provinces is growing and citizens are calling for ever-greater services.

Minister of Lands and Forests Ivan Casey (Okotoks-High River), reported 500,000 acres (one-third of Alberta's homesteaded acreage) under lease to 1,796 veterans.

It is understood that plans to boost the speed limit from 25 to 30 miles per hour in cities, towns and villages, are going to be changed as a result of protests from many towns and villages. The speed limit will remain at 25 miles per hour, except in the cities, which may set it at from 25 to 30.

THE GREEN LITTLE SHAMROCK

There's a dear little plant that grows in our lane,
'Twas St. Patrick himself sure that set it.
And the sun on his labor with pleasure did smile,
And with dew from his eye often wet it.

It thrives through the bog, through the brake and the mireland,
And he called it the dear little shamrock of Ireland—
The sweet little, green little shamrock of Ireland.

This dear little plant that springs from our soil,
When its three little leaves are extended
Denotes on one stalk we together should toil,
And ourselves by ourselves be befriended.

And still through the bog, through the brake, and the mireland
From one root shall branch like the shamrock of Ireland.
The sweet little, green little shamrock of Ireland.

Wedding Bells

LOVESETH — LINDBERG

The Camrose Grace Lutheran Church was the scene of a pretty afternoon wedding on Tuesday, March 10, when Ellen Shirley, youngest daughter of Mr. and Mrs. V. Lindberg, Jarrow, became the bride of Einar, eldest son of Mr. and Mrs. O. Loveseh, Viking, Palster Valley performed the double ring ceremony.

The bride, given in marriage by her father, looked charming in a ballerina length gown of delicate pink taffeta fashioned with double bouffant net overskirts with brocade panels. It featured puffed sleeves and scalloped brocade doilies with net yoke. Her bonnet style headress, chapel veil and short nylon mittens were of matching pale pink. Her costume was accented by a tear-drop pearl necklace and earrings and she carried a bouquet of cream and pink Talian roses.

The bride's only attendant, her sister Stella, chose a ballerina length tulle gown of light green with matching bandeau and nylon mittens and carried a nose-gay of yellow carnations and roses.

Lyder Loveseh, brother of the groom, acted as best man.

Leaving the church in a shower of confetti, the wedding party adjourned to the reception in the Hotel Alice. Pink and white streamers formed a canopy above the bride's table which was centred by a beautifully decorated three-tiered cake topped by a miniature bride and groom. Toasts to the bride and groom were given by M. Bilo and L. Loveseh and were ably responded to by the groom.

For her daughter's wedding, Mrs. Lindberg chose a dress of navy blue sheer with matching accessories and red roses on corsage. The groom's mother, Mrs. Loveseh, wore a navy blue afternoon dress with accessories to tone and a red-rose corsage.

In the evening the newlyweds played host to a large number of relatives and friends at a dance in the Kinsella Memorial Hall.

The bride's travelling outfit consisted of a teal English gabardine suit, short beige topper, and beige chocolate accessories. The happy couple motored to Edmonton and then on to points in Montana, California and Oregon.

Vermilion Tigers Are Champs of The Eastern Alberta Hockey League

(From The Viking News)

The climax of the games in the Eastern Alberta Hockey League ended in a blaze of glory for the Vermilion Tigers when they defeated the Viking Lions in the fifth game of the final series for the championship of the League, the game being played at Vermilion before a sell out crowd Monday evening. The score was Vermilion 8, Viking 4.

By taking the Vermilion Tigers here on Friday night, by the score of 8 to 3, the Lions upset the hopes of the Tigers to end the series, and raised the hopes of a thousand faithful fans that the Lions would repeat on Monday night at Vermilion, but it wasn't to be.

Our Lions doomed by injuries to several players, put up a game and heroic fight, but the many fans from town and country who have followed and supported the team through thick and thin during the entire season. The Lions is not only a home team, it is a team that the district as a whole has knitted our community together. To coach Bob Proulx, to manager Laurie Rasmussen, to Ken Hilliker, the statistician, to the arena committee, the News acknowledges much assistance in reporting the activities of the league, and especially our hockey team.

which left him blind on one side.

The Vermilion Tigers came out with an inspired pep talk from their coach Elmer Kreller and scored four goals while the Lions with a solo effort by young Masson left the second period with the Tigers ahead 4 to 3. In the third period the Tigers clinched the mug, emblematic of the championship, by nicking the hemp with four more goals.

The Viking team congratulated the Tigers on their win at the close of the game, and applauded while Mr. West of Vermilion awarded the Craig Trophy to the victors, Albert Glasgow, captain of the Lions, said over the mike that the best team won, and from the result of the finals, Mr. Glasgow said a mouthful.

This corner must pay a deserved tribute to the many fans from town and country who have followed and supported the team through thick and thin during the entire season. The Lions is not only a home team, it is a team that the district as a whole has knitted our community together. A group of Camrose College students will be presenting a program at Sharon on Sunday, March 22 at 11 a.m.

A pleasant holiday is wished for Mr. and Mrs. L. Satre who are now visiting their son Curtis and his wife at Vancouver.

Red Cross Notes

Irma and district has reached a total of \$200.00 in its annual Canadian Red Cross Society campaign for a quota of \$450.00. With the month-long campaign half over, Campaign Chairman states that everyone who has not yet contributed to the fund do so in order that this district may go over the top.

"We cannot afford to curtail any of the Red Cross Services. There is no person in this area who can tell when he may be in need of any of the Red Cross services: The Blood Transfusion Service, the Alberta Red Cross Crippled Children's hospital or Disaster Relief.

"Keeping the Red Cross alive in this area is an important type of insurance—insurance that will rush to your aid, without questions asked, the minute you need its services."

With a provincial quota of \$450,000, during the 1953 campaign, the Canadian Red Cross Society plans to spend over \$600,000 during the year in Alberta. This includes the nationally-supported Blood Transfusion Service as well as Alberta's own particular project, the Alberta Red Cross Crippled Children's hospital which cared for 317 patients, including 149 polios, during 1952.

Other Red Cross services include disaster relief, welfare, Junior Red Cross, swimming and water safety, services to veterans both in and out of hospital and women's work for both at home and overseas.

In 1939 the excise tax paid at the factory on the average new Canadian automobile was \$3 and sales tax was \$58; today excise tax on the same car is \$217 and sales tax is \$145.
